Workshop Details

Over the recent decades, psychologists and professionals in the business world have found that individuals who excel at problem-solving typically follow a consistent process to recognize and execute solutions. This approach is applicable to problems of any scale, be it substantial or minor.

Workshop Objective

The focus of the problem-solving workshop is to enhance and develop creative problem-solving techniques. This includes gaining a deeper understanding of problems, asking pertinent questions, evaluating potential solutions, and identifying necessary tasks and resources.

40 High Park Ave, Toronto, Ontario
