

PROFESSIONAL NETWORK

BUILDING WORKSHOP

WORKSHOP DETAILS

This workshop highlights the significance of internal networking for success.

It includes defining networking, understanding principles, using tools, avoiding mistakes, relationship-building, and time management. By following these insights, individuals enhance networking skills and thrive professionally within their organization.

WORKSHOP OBJECTIVE

The Participants will excel in remote work and be adept in self-management, time management, organization, communication, and problem-solving.

They'll maintain motivation, efficiently manage time, communicate effectively with remote teams, and tackle common challenges, ensuring success in remote work.

MODE OF LEARNING

Virtual Instructor-led – 4 hours online delivery.

In-Person Workshop- 6 hours of in-person training
